FOREWORD

Since its establishment in 2000, the Japan Fund for Poverty Reduction (JFPR) has had impressive and noteworthy accomplishments. In my first year as Japan's Executive Director in the Board of Directors of the Asian Development Bank (ADB), I interacted with project recipients in remote mountain communities, in farms, and in cities. Hearing their stories and seeing firsthand how JFPR has improved their lives have been very rewarding.

The JFPR is fully aligned with the three objectives of Japan's official development assistance, which is to catalyze growth, to promote peaceful and stable societies, and to promote human security.

JFPR grants, which are usually of a pilot nature and relatively small in size, allow the testing of new practices and solving poverty-related issues at the grassroots level. These innovations have been scaled up and have become a catalyst for larger projects funded by ADB, other donors, or even by the governments of developing member countries.

JFPR is participatory and inclusive. A project can be approved only after extensive consultation with the various stakeholders, especially the community beneficiaries. The community steers the project and identifies what infrastructure should be built and where; what activities will be undertaken; and how it will participate in implementation, monitoring, and evaluation. This community involvement makes JFPR projects sustainable, and promotes peaceful and stable societies.

Despite increasing global challenges and threats to human security, JFPR has been instrumental in dealing with many regional and transboundary issues, such as environmental problems, climate change, natural disasters, and infectious diseases. It has developed capacity, facilitated policy formulation and implementation, and supported the preparation of larger projects that address these challenges.

JFPR has definitely spearheaded addressing development issues in the Asia and Pacific region. It is my honor to continue the successful partnership between the Government of Japan and ADB through JFPR, and I commend the Office of Cofinancing Operations for the fund's successful administration.

A. Masegawa

Koichi Hasegawa Executive Director for Japan Asian Development Bank

Overview

The Annual Report 2015 of the Japan Fund for Poverty Reduction (JFPR) is the 15th report for the fund, and it covers the period from 1 January 2015 to 31 December 2015. It presents the background and rationale, implementation progress, and achievements of the JFPR.

Established in May 2000, the JFPR provides direct grant assistance to the poorest and most vulnerable groups in developing member countries (DMCs)¹ of the Asian Development Bank (ADB) while fostering long-term social and economic development.²

Since 2010, the JFPR has also provided financial support to the technical assistance (TA) program of ADB. The JFPR took over the mandate of the Japan Special Fund (a JFPR precursor, from 1988 to 6 October 2009) to provide TA to the DMCs, after the Revised Operating Framework for the JFPR³ combined Japan's project grant and TA support under one umbrella, with the approval of the ADB Board of Directors.

This report contains general information about the two financing modalities of the JFPR—project grants and TA— and gives details about their operating performance in 2015.

Objectives

The JFPR seeks to add substantive value and development impact to ADB assistance, through grants for poverty reduction and TA activities that are in line with ADB's priorities, as laid out in the midterm review of its long-term strategic framework for 2008–2020 (Strategy 2020); and compatible with and complementary to the broad thrusts of ADB country partnership strategies.⁴

¹ ADB. Members. http://www.adb.org/about/members

² The Government of Japan established a similar facility, the Japan Social Development Fund, at the World Bank.

³ ADB. 2009. Revised Operating Framework for the Japan Fund for Poverty Reduction. Manila.

⁴ ADB. 2014. *Midterm Review of Strategy 2020: Meeting the Challenges of a Transforming Asia and Pacific.* Manila. Strategy 2020 has refocused ADB operations on three development goals: inclusive economic growth, environmentally sustainable growth, and regional integration.

Of the two financing modalities, project grants

- support well-targeted poverty reduction and social development activities that have a direct impact on the poor and on socially or economically excluded or vulnerable groups,
- stimulate the self-help capacities of the poor and vulnerable groups,
- (iii) promote the widespread participation of stakeholders at the community level, and
- (iv) provide a system-wide impact on DMCs' operations and approaches to sustainable poverty reduction.

Meanwhile, TA projects

- strengthen the capacity of executing agencies and other development partners to implement and operate projects;
- prepare and coordinate development strategies, plans, and programs and carry out studies on sectors, policies, and issues;
- (iii) improve knowledge of development issues in Asia and the Pacific, and foster inclusive and environmentally sustainable growth and regional cooperation and integration among DMCs; and
- (iv) analyze, plan, and prepare development projects.

Activities

Project grants. JFPR project grant will finance a project that

- (i) is aimed directly at poverty reduction,
- (ii) provides innovative and demonstrable impacts, and
- (iii) has positive prospects of developing into sustainable activities.

TA grants. JFPR TA projects may involve a single DMC or, in the case of regional TA projects, a group of DMCs. These projects may finance capacity development TA, policy and advisory TA, research and development TA, or project preparatory TA; or finance, in special cases on a

grant basis, TA components of development projects or programs financed under ADB loans.

Processing of Grant and Technical Assistance Proposals

Besides ADB's general procedures, JFPR grant and TA proposals must comply with the following procedures specific to the JFPR, to get approval from the Government of Japan and ADB:

- Only ADB staff can prepare grant or TA proposals. Therefore, interested proponents, including nongovernment organizations (NGOs), must contact ADB staff from an ADB country office or sector division at headquarters.
- OCO receives and reviews the proposals or seeks clarification from the ADB staff to ensure consistency with JFPR's objectives and guidelines.
- (iii) After the interdepartmental review and approval by the director general, the ADB staff through the Office of Cofinancing Operations (OCO) submits the grant or TA proposals to the Government of Japan.
- (iv) OCO recommends to the Government of Japan if the proposals meet the JFPR criteria.
- (v) The Government of Japan approves or rejects the proposals or seeks further clarification.

Accountability and Transparency

As stated in the arrangement letter between the Government of Japan and ADB, which became the basis for the Revised Operating Framework for the JFPR (footnote 4), ADB, as trust fund administrator, has to "carry out such administration in accordance with its normal practices and standards and with the same degree of care as it uses in the administration of its own funds." Consultants are therefore recruited, and goods are procured under the JFPR according to ADB's Guidelines on the Use of Consultants⁵ and Procurement Guidelines.⁶ The payment of JFPR expenditures conforms to ADB's standard disbursement procedures, and financial records and accounts are audited annually by independent auditors and included in the JFPR annual report.

To harmonize and coordinate project proposals with the policies and programs of the Government of Japan, project officers must consult with the local embassy of Japan⁷ and the Japan International Cooperation Agency (JICA) before submitting proposals to OCO. The proposals are then screened on the basis of the criteria and focus areas ADB and the Government of Japan agree on at the start of each year. Like project proposals in all other areas of ADB operations, JFPR project proposals must comply with ADB's safeguard policies for resettlement, indigenous peoples, gender, and the environment; and ADB's public communications policy, which covers information disclosure and external relations.

During project implementation, ADB staff should monitor and evaluate the output and outcome of JFPR activities, as they would for all other ADB-financed projects or TA. Monitoring and evaluation are based on the design and monitoring framework agreed on with various stakeholders (communities, local and central governments, NGOs, and private sectors) in consultations during project formulation. These results are then fed back to the DMCs' operations, to be replicated and institutionalized. To further promote Japanese visibility in the field, the projects should ideally complement and have synergies with JICA projects and technical cooperation activities, tap Japanese human resources, or use Japanese technology, knowledge, and expertise.

Contributions of the Government of Japan

In May 2000, the Government of Japan made an initial contribution of ¥10.0 billion (about \$92.6 million) to the JFPR. This was followed, in March 2002, by an additional contribution of ¥7.9 billion (about \$61.1 million) and the transfer of \$90.0 million by the government from the Asian Currency Crisis Support Facility to the JFPR. The government made 11 further contributions, including an additional ¥4.8 billion (about \$40.3 million) in 2015, bringing the total to about \$702.7 million.⁸

Commitments and Financial Status

By 31 December 2015, the JFPR had committed a total of \$501.5 million for 169 grants and \$228.2 million for 198 TA projects. Outstanding amounts totaled \$468.5 million for 162 grants and \$220.2 million for 192 TA projects. Agreement letters were signed and in effect for these grants and TA projects. By the end of 2015, about \$98.4 million was available for further commitments. Appendix 1 presents the year-end audit report and financial statements for 2014 and 2015.

⁵ ADB. 2012. Guidelines on the Use of Consultants. Manila.

⁶ ADB. 2012. Procurement Guidelines. Manila.

⁷ For regional projects, mission leaders are required to consult with the embassies of all countries mentioned in the proposal.

⁸ The other contributions before 2015 were made in March 2003, ¥7.1 billion (about \$59.9 million); March 2004, ¥2.6 billion (about \$23.3 million); March 2005, ¥1.9 billion (about \$18.0 million); March 2006, ¥1.8 billion (about \$15.5 million); March 2009, ¥3.2 billion (about \$32.5 million); March 2010, ¥4.9 billion (about \$52.9 million); March 2011, ¥4.9 billion (about \$53.8 million); March 2012, ¥4.4 billion (about \$57.3 million); March 2013, ¥4.8 billion (about \$53.8 million); and March 2014, ¥4.9 billion (about \$40.3 million).

OVERVIEW OF 2015 OPERATIONS

Processing and Approvals

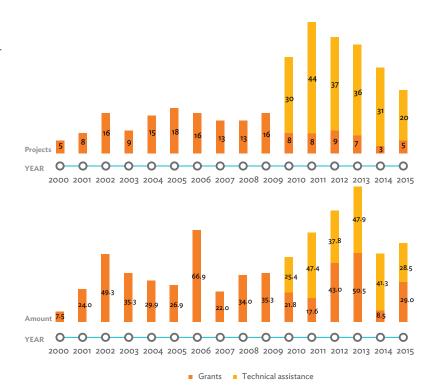

Appendix 2 lists the Japan Fund for Poverty Reduction (JFPR) projects approved by the Asian Development Bank (ADB) during 2000–2015. Figure 1 shows the number and the amount of ADBapproved JFPR projects during the same period.

Project grants. In 2015, ADB approved five grants worth \$29.0 million for four countries. As of 2015, Mongolia had the highest number of JFPR projects with 19 approved projects, followed by the Philippines and Cambodia, with 13 projects each. Figure 2 shows the distribution, by country, of projects approved in 2015 and the cumulative approvals for 2000–2015.

In 2015, East Asia had the highest number of approved projects, with two projects (Figure 3). In terms of total approvals during 2000–2015, Southeast Asia led with 64 projects followed by South Asia with 38.

In terms of sector distribution of projects approved in 2015, education projects accounted for 79.3%

Figure 1: Number and Amount of ADB-Approved Japan Fund for Poverty Reduction Projects, 2000–2015

ADB = Asian Development Bank. Source: ADB Cofinancing Database.

ADB = Asian Development Bank. Source: ADB Cofinancing Database.

Figure 3: Distribution of ADB-Approved Japan Fund for Poverty Reduction Grants by Region, 2000–2015

of the total approved grant amount with \$23.0 million (Figure 4). Agriculture, natural resources, and rural development projects, with \$140.1 million, made up 27.9% of the total cumulative grant amount for 2000–2015 (Figure 5), followed by health and social protection with \$82.2 million (16.4%), and transport and information and communication technology with \$57 million (11.4%).

Technical assistance. In 2015, ADB approved 20 technical assistance (TA) projects totaling \$28.5 million. Developing member countries (DMCs) from East Asia and South Asia received the most approvals, with six TA projects each, while those from Southeast Asia had five. Mongolia received the most number of TAs, with six, followed by India with three (Figure 6). In terms of sector distribution of TA projects approved in 2015, education had the largest TA amount, totaling \$5.0 million and representing 17.6% of the total approved TA amount (Figure 7). Public sector management projects followed with \$4.9 million (17.2%).

Appendix 3 summarizes the five project grants and 20 TA projects approved in 2015.

Letters of Agreement

8

Project grants. Of the 169 JFPR projects approved by ADB since 2000, 162 have taken effect (their letters of agreement have been signed). In 2015, five projects were approved, but had not yet taken effect by 31 December 2015.

Technical assistance. Of the 198 TA projects approved by ADB since 2010, 192 have taken effect. Of the 20 projects approved by ADB in 2015, 14 were in effect as of 31 December 2015.

Box 1 features selected grant and TA signing events in 2015.

BOX 1: SIGNING OF THE JAPAN FUND FOR POVERTY REDUCTION LETTERS OF AGREEMENT

28 JANUARY 2015

Mongolia, ADB sign letters of agreement for two JFPR projects

Mongolia Finance Minister and ADB Governor Jargaltulga Erdenebat; East Asia Department Director General Ayumi Konishi; and Environment, Green Development, and Tourism Minister Dulamsuren Oyunkhorol signed two JFPR agreements on 28 January in Ulaanbaatar.^a The projects on sustainable forest management and strategic planning for peatlands aim to enhance stakeholders' capacity to manage and restore the ecosystems, and improve the livelihood of local communities.

23 OCTOBER 2015

19 NOVEMBER 2015

Mongolia, ADB sign agreement for health and education services

Representatives from Mongolia's ministries of finance, health and sports, and education, as well as from the Mongolia Resident Mission signed on 23 October two TA agreements for \$2 million, financed by JFPR to help improve access to health services for disadvantaged groups and access to quality education services.^b Embassy of Japan First Secretary Hiroshi Fukasawa witnessed the ceremony.

Bangladesh, ADB sign \$1 million JFPR TA grant agreement

Bangladesh Economic Relations Division Joint Secretary Saifuddin Ahmed and Bangladesh Resident Mission Country Director Kazuhiko Higuchi signed the agreement on 19 November in Dhaka to promote the sustainable use of surface water for the city. Embassy of Japan in Dhaka

Counselor Mitsutake Numahata was present at the ceremony.

20 NOVEMBER 2015

Japan, ADB help Vanuatu rebuild schools after Cyclone Pam

Pacific Liaison and Coordination Office Regional Director Andrea Iffland and Vanuatu Acting Minister for Finance and Economic Management Toara Daniel Kalo signed the grant agreement for the project on 20 November in Port Vila. The grant will rebuild junior secondary schools in Tafea Province, making them more resilient to future climate change risks.^c Itsubo Toyoaki, JICA resident representative, witnessed the signing.

8 DECEMBER 2015

Nepal, ADB sign JFPR grant agreement for disaster risk reduction

Nepal Finance Secretary and ADB Alternate Governor Lok Darshan Regmi and Nepal Resident Mission Country Director Kenichi Yokoyama signed on 8 December in Kathmandu a grant agreement of a \$15 million JFPR project for postearthquake reconstruction and livelihood support. The grant will construct about 14 model schools, provide microcredit to at least 12,000 small farmers, and help in the capacity development of affected communities on disaster risk management. Japan Ambassador to Nepal Masashi Ogawa and JICA Chief Representative Tsutomu Shimizu also attended the signing ceremony.

ADB = Asian Development Bank, JFPR = Japan Fund for Poverty Reduction, JICA = Japan International Cooperation Agency, TA = technical assistance.

Disbursements

JFPR project disbursements up to 2015 totaled \$444.5 million (Figure 8). Appendix 4 lists the disbursement figures for each project.

Project grants. Project grant disbursements in 2015 totaled \$25.6 million, 11.8% more than the \$22.9 million

in 2014. Total JFPR grant disbursements up to the end of 2015 amounted to \$329.4 million.

Technical assistance. TA project disbursements in 2015 totaled \$35.0 million, 22.4% more than the \$28.6 million in 2014. Total JFPR TA disbursements up to the end of 2015 amounted to \$115.1 million.

Success Stories from the Field

Since JFPR's establishment in 2000, more than 169 JFPR project grants have been implemented across Asia and the Pacific. Of these, 136 were completed, and their results and lessons are documented in project reports and implementation completion memorandums to help guide similar or related interventions in the future. Although the projects vary in scope and thematic focus, they all work with the poorest and the most vulnerable communities and households to improve their socioeconomic conditions. Box 2 features JFPR projects that changed people's lives for the better.

BOX 2: SUCCESS STORIES FROM THE FIELD

12

natural resource management plan

- 20 model community-based organizations established

This is one of several tree nurseries established by community-based organizations in the Onon River Basin. Photo credit: G9125-MON Project Implementation Unit.

MONGOLIA: SUSTAINABLE RIVER BASIN THROUGH WATER RESOURCE MANAGEMENT

With support from the \$2 million Poverty Reduction through Community-Based Natural Resource Management project, the Onon River Basin Council was established for sustainable management of the river basin.^a An integrated water resource management plan was developed using a participatory approach and was approved by the provincial governments. The project established 125 community-based organizations that currently manage 413,430 hectares of forest areas based on agreements and forest management plans signed with local governments. Seven *soum*-level buffer zone councils (BZCs) were also established. All seven BZCs developed buffer zone management plans, and with support from the project and local governors' offices, the community revolving fund contributed by those BZCs reached close to \$200,000. The fund supported small projects to improve the livelihoods of local communities and community-based organizations.

A total of 79 small-scale projects were supported to promote employment and develop small and medium-sized enterprises. The total income of those enterprises reached \$220,000. As many as 187 people were provided with job opportunities and received salaries totaling nearly \$150,000. In addition, 120 people received vocational training, 40 of whom became certified carpenters and were subsequently employed.

For Honeylette Molina and the children at her school in Tanauan, a new life has begun as Typhoon Yolanda did not dent their hopes for a better future. Photo credit: Ariel Javellana.

PHILIPPINES: CLASSROOMS OF HOPE

In the early morning of 8 November 2013, Typhoon Haiyan (Yolanda) struck the central Philippines. With winds of more than 300 kilometers per hour, this was one of the strongest storms ever recorded to hit land. The trail of devastation left behind was immense: more than 6,000 lives were lost and more than 13 million people affected. A total of nearly 1 million homes were destroyed or damaged.

A total of 20,000 classrooms were destroyed or damaged in the Eastern Visayas region. For months, students were taught in tents and makeshift classrooms, sitting in chairs and desks salvaged from the site. The tents could become extremely hot during the day, and the children had no proper toilets or wash areas. The recovery effort is bearing fruit. At the Bislig Elementary School in Tanauan, Leyte, the construction of classrooms was financed by the Japan Fund for Poverty Reduction.^b The new classrooms are spacious and have separate toilets for girls and boys, and a wash area where children can proudly take part in a toothbrush program. Above all, the classrooms are far more solid and secure than the old ones.

For many students such as Honeylette Molina, studying is now less difficult. "Now that our classroom has been repaired, things are better and we find it easier to study," says Honeylette, who finished primary school in March 2014 as class valedictorian. Perhaps inspired by the work done at the school, she wants to become an engineer and build houses when she grows up.

A tractor crosses a reinforced concrete bridge over the Surhob River, connecting Zarangak Village to hospitals, schools, and markets in Rasht Center. Photo credit: Nozim Kalandarov.

TAJIKISTAN TRANSPORT: SURHOB RIVER BRIDGE SAVES LIVES

In Zarangak Village in northeast Tajikistan, Hakimjon Kululov, a family doctor, uses a stethoscope to check the lungs of a coughing baby boy.

Kululov, 46, recalls horror stories of having to carry emergency patients to the district hospital on stretchers over an old, shaky suspension bridge made of wood and rope. The trip took the doctor and other helpers 2–3 hours on foot. That is all in the past, now that his village and 19 other remote villages can cross the Surhob River to Rasht's hospitals, schools, and markets via a new bridge made of reinforced concrete. If an emergency happens, it takes less than 15 minutes to drive a sick person to a district hospital in Rasht Center

- Hakimjon Kululov, doctor

14

"In the past, I could not sell my apples and pears at all. No vendor came to our village to pick them up," said 51-year-old farmer, Davlathuja Kulolov. "But now it's only 8 kilometers to the main market, and the journey is easy."

Photo credit: Nozim Kalandarov.

"I feel so much more optimistic," he says of village health care, "thanks to the bridge. If an emergency happens, it takes less than 15 minutes to drive a sick person to a district hospital in Rasht Center."

Bridging the Divide

In 2007, through the Japan Fund for Poverty Reduction, ADB approved a \$2 million grant for the Sustainable Access for Isolated Rural Communities Project.^c

The project built the 227-meter bridge, and just over a kilometer (km) of road leading up to the bridge, while also improving over 14 km of rural roads connecting nearby communities to the bridge. Residents say the bridge and the roads have made life much more convenient, particularly given that there were times in the past when the old suspension bridge could not be used at all.

Before the new bridge was built, Hakimjon Kululov, a doctor, carried emergency patients across a rickety wooden bridge to the nearest hospital in Rasht Center. Now he can drive patients to the hospital in just 15 minutes.

Photo credit: Nozim Kalandarov.

"When the suspension bridge is flooded and we couldn't use it, we had to cross the river on rafts made of inflated cow stomachs and planks of wood," says Abdulhakim Karimov, 63, head of the Hijborak Community Council. "The rafts were very dangerous, and after several people died, we banned the use of these."

Kirgiz Niyozov, 80, a resident of Zarangak Village, 19 km east of Rasht Center, calls the bridge "a unique gift" that he and his fellow villagers had long dreamed of.

"We now have a very stable and safe bridge," he says, "one that cars can easily drive across. Our great grandchildren will remember and thank those who helped build the bridge."

Monitoring and Consultation

16

The agreement establishing the JFPR requires representatives of the Government of Japan to undertake monitoring visits to JFPR project sites. In 2015, the Office of Cofinancing Operations (OCO), together with the ADB executive director for Japan⁹ traveled on coordination and monitoring missions to Bangladesh, Bhutan, and Myanmar to visit JFPR project sites and meet with beneficiaries (Box 3).

Separate OCO missions were fielded in Indonesia, Nepal, the Philippines, Sri Lanka, and Viet Nam. The mission members met with ministry of finance officials, heads of executing and implementing agencies of projects, nongovernment organizations (NGOs) and community leaders, and Japanese embassy officials and the Japan International Cooperation Agency (JICA) representatives.

Completed Projects

As of 31 December 2015, 136 of the 169 project grants since 2000 had been completed—133 of them in 2004–2014, and 3 in 2015. In 2015, OCO received five implementation completion memorandums detailing the results, lessons, and recommendations from completed JFPR projects.

Participation of Nongovernment Organizations

Participation of NGOs is deeply ingrained in JFPR operations. The JFPR is widely recognized as one of the primary ADB grant facilities available to NGOs. Under JFPR projects, NGOs and community groups are routinely involved in different stages of the project cycle, from fact finding, preparation, and appraisal; to implementation, monitoring, and evaluation. NGOs provide information, organize communities, offer some other specialized service, or act as consultants to ADB during project supervision.

The NGO may take the initiative to bring a proposal to ADB's attention, where it is taken up by an ADB officer who obtains the necessary project approvals. In such cases, the NGO becomes either an executing agency or an implementing agency, with partnership arrangements detailed in a memorandum of agreement. OCO receives offers of collaboration from various NGOs around the region, which the JFPR staff transmit to the resident missions or divisions concerned. Appendix 5 lists the NGOs participating in JFPR projects.

BOX 3: JAPAN FUND FOR POVERTY REDUCTION COORDINATION AND MONITORING MISSIONS WITH THE ADB EXECUTIVE DIRECTOR FOR JAPAN IN 2015

11-13 APRIL 2015

ADB executive director for Japan meets with Bangladesh minister of finance and JFPR beneficiaries

Bangladesh Finance Minister and ADB Governor Abul Maal A. Muhith met with 2013–2015 ADB Executive Director for Japan Kazuhiko Koguchi during the JFPR monitoring and coordination mission on 11–13 April in Dhaka. The executive director visited JFPR beneficiary communities in Dhamrai, Rajshahi, and Uttara together with staff from the Office of Cofinancing Operations and the Bangladesh Resident Mission.

15-16 JUNE 2015

ADB executive director for Japan ADB meets with Bhutan finance minister

Bhutan Finance Minister and ADB Governor Lyonpo Namgay Dorji met with 2013–2015 ADB Executive Director for Japan Kazuhiko Koguchi during the JFPR monitoring and coordination mission on 15–16 June in Thimpu. The executive director and OCO staff discussed the progress of JFPR's projects with various implementing agencies.

Myanmar Finance Minister and ADB Governor Win Shein, senior officials, and key stakeholders met with a JFPR monitoring and coordination team led by ADB Executive Director for Japan Koichi Hasegawa during a visit on 1–4 September in Nay Pyi Taw and Yangon. They discussed Myanmar's development challenges, ADB's effectiveness, and development partnerships, including with Japan. The executive director also met with graduates of the ADB–Japan Scholarship Program to foster the alumni network in Myanmar. *Photo credit: ADB Photo Library.*

Outreach, Visibility, and Knowledge Sharing

As agreed with the Government of Japan, project officers are asked to help promote the visibility and local awareness of JFPR in recipient countries. For this purpose, ADB project officers and OCO ensure that key project events in the field are well covered by print and electronic media; that all related publicity materials, official notices, reports, and publications explicitly acknowledge Japan as the source of funding; and that the JFPR and Japan Official Development Assistance logos are prominently displayed. JFPR projects are also encouraged to complement and seek synergies with JICA projects and technical cooperation activities; tap Japanese human resources; or use Japanese technology, knowledge, and expertise.

Officials of the Embassy of Japan and JICA, government officials, the ADB country director, and the resident mission staff attend ceremonies held to mark a grant or TA signing or launch, inauguration of facilities, or handing over of major equipment, as well as major conferences and workshops and similar events. These project milestones and other important JFPR events and announcements are also featured in *ADB Today*, ADB's daily in-house electronic newsletter. Announcements of JFPR activities that came out in 2015 are shown in Box 4.

BOX 4: JAPAN FUND FOR POVERTY REDUCTION ANNOUNCEMENTS IN ADB TODAY, 2015

ADB and Mongolia's Financial Regulatory Commission launched on 12 January a national television (TV) drama series, How to Become a Millionaire, designed to improve financial literacy and help reduce poverty. The TV series, developed under JFPR grant to promote inclusive financial services for the poor in Mongolia, will be broadcast nationwide at prime time, featuring a well-known cast to ensure high visibility and viewer ratings.

Arsenio Balisacan, Philippine socioeconomic planning secretary and National Economic and Development Authority director general; and ADB consultants visited on 25 June the Bislig Elementary School in Leyte, which was badly damaged by Typhoon Yolanda. The school rehabilitation project is supported by the JFPR.

ADB JOINS INTERBANK ELECTRONIC PAYMENT SYSTEM LAUNCH IN BANGLADESH

Bangladesh Resident Mission Country Director Kazuhiko Higuchi joined on 31 October in Dhaka Central Bank Governor Atiur Rahman and Bank and Financial Institutions Division Secretary M. Aslam Alam to launch an automated interbank electronic real-time payment system, a tool developed with support from a JFPR grant on Institutional Support for Migrant Workers' Remittance. The system was launched at the Seminar on Development of Payment Systems in Bangladesh—Payment and Remittances through Real-Time Gross Settlement.

JFPR-FUNDED RURAL DIAGNOSTIC CENTER INAUGURATED IN TAJIKISTAN

Ambassador of Japan in Tajikistan Takashi Kamada and Tajikistan Resident Mission Country Director Chang Ching Yu participated in the inauguration of a rural diagnostic center and handover of medical equipment and ambulance to a rural hospital on 22 May in Navobod, Rasht district. The medical facility, built under a JFPR project, aims to improve maternal and child health.

SOUTH ASIA SUBREGIONAL ECONOMIC COOPERATION COUNTRIES MEET ON CROSS-BORDER TRANSPORT AGREEMENT

ADB facilitated the meeting on 8–9 September in Dhaka of senior officials of Bangladesh, Bhutan, India, and Nepal on implementing their motor vehicles agreement. The meeting, supported by JFPR technical assistance, reached agreement on guidelines on cross-border movement of passenger and cargo vehicles.

ADB LAUNCHES URBAN DEVELOPMENT PROJECT IN MYANMAR

Myanmar Ministry of Construction director general Min Htein and Myanmar Resident Mission's Peter Brimble opened the inception meeting for JFPR-funded Pro-Poor Community Infrastructure and Basic Services Project on 1 December in Nay Pyi Taw. The project is ADB's first urban development project in Myanmar. Representatives from JICA, Mandalay, and Yangon municipal governments actively participated in the meeting.

Photo shows the participants in the Japan Fund for Poverty Reduction forum on disaster risk management with Executive Director for Japan Koichi Hasegawa (fourth from left, front row) and 2014–2016 Office of Cofinancing Operations Head Rune Stroem (fifth from left, front row). Photo credit: Eric Sales.

On 19 October, the Philippines Country Office, OCO, and the Sustainable Development and Climate Change Department organized a JFPR forum and exhibit showcasing JFPR disaster risk management projects across Asia. Executive Director for Japan Koichi Hasegawa and OCO Head Rune Stroem opened the sessions. The forum highlighted lessons from the Typhoon Yolanda recovery efforts and the build back better concept. It was attended by development partners, local stakeholders from the Eastern Visayas region of the Philippines, and project managers of JFPR disaster assistance projects .

At the ADB's 48th Annual Meeting at the Heydar Aliyev Center in Baku, Azerbaijan in May 2015, OCO organized a JFPR exhibit to showcase JFPR projects in selected developing member countries. Delegates, including highlevel officials, visited the exhibit, which focused on the results of successful projects using posters, publications, livelihood products, and other visibility materials.

The JFPR website mapped to ADB's website continues to be an important platform for disseminating information about the JFPR. In addition, the *Japan Fund for Poverty Reduction Annual Report 2014* was produced and distributed to the public. The Japan Funds Facebook page was also launched to establish awareness on Japanese assistance in ADB, including JFPR, through social media. Appendix 6 lists the JFPR communication and outreach activities in 2015.

2016 ACTIVITIES

In 2016, the focal areas of the Office of Cofinancing Operations (OCO) are the following:

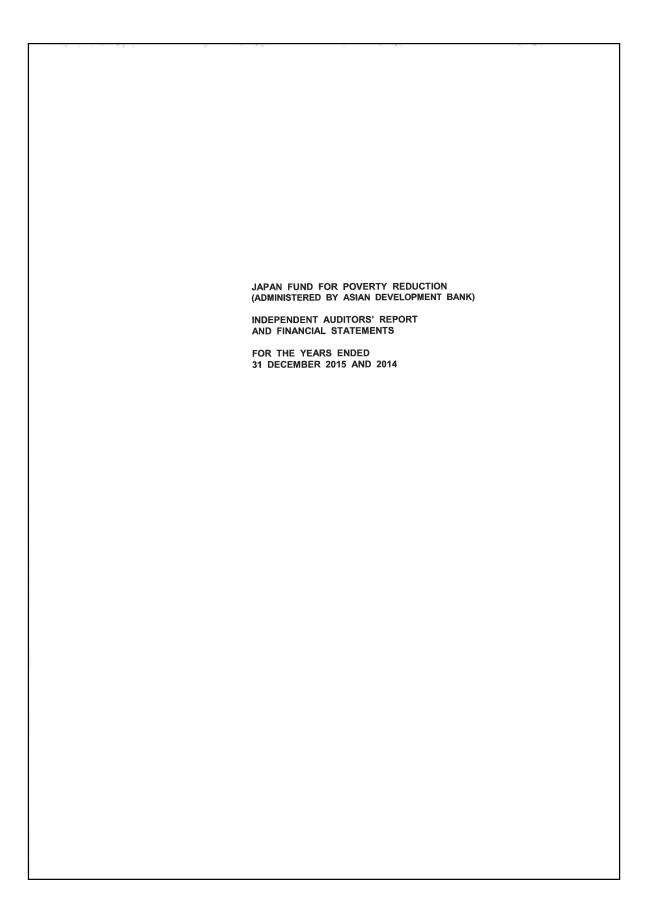

- (i) further streamlining the Japan Fund for Poverty Reduction (JFPR) grant and technical assistance procedures and templates;
- (ii) further enhancing coordination with regional departments to facilitate the preparation, processing, and administration of JFPR project and technical assistance grants;
- (iii) further promoting Japanese visibility by encouraging collaboration with Japanese nongovernment organizations, academic institutions, and the private sector, among other activities, including widening outreach through social media; and
- (iv) continuing efforts to promote knowledge management and dissemination of lessons learned, including a JFPR exhibition during the ADB 49th Annual Meeting in Frankfurt in May 2016.

INDEPENDENT AUDITORS' REPORT

To the Asian Development Bank – Administrator for Japan Fund for Poverty Reduction

We have audited the accompanying financial statements of Japan Fund for Poverty Reduction administered by Asian Development Bank (ADB) (the Administrator) which comprise the statement of financial position as of 31 December 2015 and 2014, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

1

Deloitte.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ADB – Japan Fund for Poverty Reduction as of 31 December 2015 and 2014, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Appendix 1

32

JFPR-4 JAPAN FUND FOR POVERTY REDUCTION (Administered by Asian Development Bank) Notes to the Financial Statements 31 December 2015 and 2014 NOTE A - NATURE OF OPERATIONS The Japan Fund for Poverty Reduction (JFPR) was established on 23 May 2000 when the Government of Japan and the Asian Development Bank (ADB) entered into a financial arrangement whereby the Government of Japan agreed to make an initial contribution and ADB became the administrator. Its primary objective is to foster sustainable poverty reduction and social development in the developing member countries of the Asian and Pacific Region. JFPR resources are used mainly to finance poverty reduction assistance (PRA) operations. On 6 October 2009, the operating framework for the JFPR was revised to include financing for technical assistance grants. Under the agreement between ADB and the Government of Japan, ADB may invest the proceeds of JFPR pending disbursement. The revenue from such investments may be used to cover the direct and identifiable costs incurred in the administration of JFPR. NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES Presentation of the Financial Statements The financial statements of JFPR are prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP), and are presented on the basis of those for not-forprofit organizations. JFPR reports donor's contribution of cash as unrestricted asset as it is made available to JFPR without conditions other than for the purpose of pursuing the objective of JFPR. Functional and Reporting Currency The United States (US) dollar is the functional and reporting currency, representing the currency of the primary economic environment of JFPR. Translation of Currencies ADB adopts the use of daily exchange rates for accounting and financial reporting purposes. This allows transactions denominated in non-US dollar currencies to be translated to the reporting currency using exchange rates applicable at the time of the transactions. Contributions included in the financial statements during the year are recognized at applicable exchange rates as of the respective dates of commitment. At the end of each accounting month, translations of assets and liabilities which are denominated in non-US dollar currencies are adjusted using the applicable rates of exchange at the end of the reporting period. Translation adjustments are accounted for as exchange gains or losses and are credited or charged to operations. Investments All investment securities held by JFPR are reported at fair value. Realized and unrealized gains and losses are included in revenue from investments.

Interest income on investment securities and time deposits is recognized as earned and reported net of amortizations of premiums and discounts.

JFPR-4 amounts of assets, liabilities and uncommitted balances as of the end of the year and the reported amounts of revenue and expenses during the year. The actual results could differ from those estimates. Accounting and Reporting Developments In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) 2014-09 "Revenue from Contracts with Customers (Topic 606)" to improve financial reporting by creating common revenue recognition guidance for US GAAP and the International Financial Reporting Standards. An entity is required to apply the amendments for annual reporting periods beginning after 15 December 2016. In August 2015, FASB issued ASU 2015-14 deferring the effective date by one year. ADB is currently assessing the impact on JFPR's financial statements. In August 2014, the FASB issued ASU 2014-15, "Presentation of Financial Statements - Going Concern (Subtopic 205-40)," to require management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date the financial statements are issued. An entity must provide certain disclosures if conditions or events raise substantial doubt about the entity's ability to continue as a going concern. The ASU applies to all entities and is effective for annual periods ending after 15 December 2016, and interim periods thereafter. This ASU is not expected to impact JFPR's financial statements. Statement of Cash Flows For the purposes of the statement of cash flows, JFPR considers that its cash and cash equivalents are limited to "DUE FROM BANKS." NOTE C - INVESTMENTS The main investment management objective is to maintain security and liquidity. Subject to these parameters, ADB seeks the highest possible return on JFPR's investments. Investments are governed by the Investment Authority approved by the Board of Directors. The estimated fair value and amortized cost of the investments by contractual maturity as of 31 December 2015 and 2014 were as follows: (\$ thousand) 31 December 2014 31 December 2015 Estimated Fair Estimated Fair Amortized Cost Amortized Cost Value Value 329,978 329,986 Due in one year or less 301,532 \$ 301,532 \$ \$ The annualized rate of return on the average investments held during the year, based on the portfolio held at the beginning and end of each month was 0.23% (0.19% - 2014).

									JFPR
									JLLK
Fair Value Disclosu	re								
The fair value of inv	estmen	ts as of 31 Dec	ember	2015 and	2014	were as	s follows:		
(\$ thousand)									
					Fair	^r Value	Measuremen	its	
	31 De	cember 2015		Level 1			Level 2	Le	vel 3
Assets Investments									
Time deposits	\$	301,532	\$		21	\$	301,532	\$

Total	\$	329,978	\$	50	,046	\$	279,932	\$	

investment securities are fair valued based on active market quotes. These include government/government-backed obligations. Time deposits are reported at cost, which approximates fair value.

NOTE D - RELATED PARTY TRANSACTIONS

Related party transactions pertain to administrative and operational expenses which are settled regularly with ADB's ordinary capital resources (OCR) or other funds. Technical assistance projects and program activities may be cofinanced by ADB's special funds and other trust funds administered by ADB (Agency Trust Funds).

JFPR-4

The interfund account balances reported as "RECEIVABLE FROM RELATED FUNDS" and "PAYABLE TO RELATED FUND" were as follows:

		2015	2014
Receivable from:			
Technical Assistance Special Fund (TASF)	\$		\$ 4
Regional Cooperation and Integration Fund (RCIF)		0	
Agency Trust Funds - net		-	22
Total	\$	0	\$ 26
Payable to:			
OCR	\$	189	\$ 211
Technical Assistance Special Fund (TASF)		60	
Agency Trust Funds - net	_	10,081	
Total	\$	10,330	\$ 211

0 = less than \$500.

The net interfund balances of OCR, TASF, and agency trust funds as of 31 December 2015 were subsequently settled on 27, 26 and 6 January 2016, respectively. The net interfund balances of TASF, OCR and agency trust funds as of 31 December 2014 were subsequently settled on 21 and 26 January 2015, respectively.

NOTE E - ACCRUED EXPENSES

Accrued expenses pertain to administrative and audit fees incurred but not yet paid.

NOTE F - UNDISBURSED COMMITMENTS

Undisbursed commitments represent effective PRA and TA projects which have not been disbursed as of the end of the year.

The fair value of undisbursed commitments approximates the amounts outstanding because JFPR expects that disbursements will be made for all the projects/programs covered by the commitments.

NOTE G - CONTRIBUTIONS AND UNCOMMITTED BALANCES

The Government of Japan contributed the sum of ¥4,770,043,000 (equivalent to \$40,291,000) and ¥4,902,288,000 (equivalent to \$47,042,000) in 2015 and 2014, respectively.

Uncommitted balances comprise amounts which have not been committed by ADB as at 31 December 2015 and 2014. These balances include approved PRA and TA projects that are not yet effective.

JFPR-4

As of 31 December 2015 and 2014, these balances were as follows:

	2015	2014
Uncommitted balances	\$ 139,385 \$	126,264
PRA and TA projects/programs approved by Japan		
and ADB but not yet effective	(41,000)	(12,500)
PRA and TA projects/programs approved by Japan		
but not vet effective	 (18,250)	(12.750)
Uncommitted balances available for new commitments	\$ 80,135 \$	101,014

NOTE H - OTHER FAIR VALUE DISCLOSURES

As of 31 December 2015 and 2014, JFPR has no assets or liabilities measured at fair value on a nonrecurring basis. See Notes C and F for discussions relating to investments and undisbursed commitments, respectively. In all other cases, the carrying amounts of JFPR's assets and liabilities are considered to approximate fair values.

NOTE I - SUBSEQUENT EVENTS

JFPR has evaluated subsequent events after 31 December 2015 through 17 May 2016, the date these financial statements are available for issuance. On 15 January 2016, JFPR received its additional contribution from the Government of Japan amounting to ¥4,642,036,000 (equivalent to \$39,319,000).

APPENDIX 3 Brief Summaries of the Japan Fund for Poverty Reduction Projects Approved in 2015, by Region

Project Grants

East Asia

Mongolia

Improving School Dormitory Environment for Primary Students in Western Region

Amount: \$3.0 million

The project will promote equal access to quality education, particularly for children from herder families, by piloting models to improve the buildings and services offered by dormitories.¹

Mongolia's school dormitory system was developed to ensure wider access to education, particularly for students from herder families. Many school dormitories were built in the 1970s and 1980s and require urgent rehabilitation. The western region supports the largest number of students staying in dormitories, of which 86% are from herder families.

Besides their dilapidated structures, dormitories have inadequate staffing to look after students' study, reading, or extracurricular activities. In addition, the dormitory teachers and guards who stay with students at night lack the skills needed to work and communicate with children. Parents in rural remote areas are often unwilling to send young children to schools because of the unfavorable school dormitory environment.

The dormitory project will establish nationally replicable models to improve dormitory buildings, facilities, and

childcare in three *aimags* (provinces)—Gov-Altai, Uvs, and Zavkhan. Dormitory buildings and facilities for heating, sanitation, and housing of students will be upgraded; staff training and management capacity will be strengthened; and a national strategy to improve the school dormitory environment will be developed.

Integrated Livelihoods Improvement and Sustainable Tourism in Khuvsgul Lake National Park

Amount: \$3.0 million

The Khuvsgul Lake project is ADB's first-ever tourism project in Mongolia that will help create jobs, develop sustainable community-based tourism, and protect the environment.²

Khuvsgul Lake National Park has long been considered one of the jewels in the crown of Mongolia's protected area estate. More than 1 million hectares of stunning snow-capped mountains and forested hillsides surround Khuvsgul Lake, which supports 70% of Mongolia's—and 1% of the world's—freshwater. Its pristine waters are vital to Mongolia, while the park's wilderness and biodiversity values are of global importance. Khuvsgul *aimag* is increasingly becoming an international tourist destination.

The Khuvsgul Lake project will focus on promoting sustainable tourism, community livelihoods, and environmental protection around the lake. Collaborative approaches will be implemented among the park authority, residents, and tour operators to strengthen local tourism business and waste management.

Pacific

Vanuatu

Cyclone Pam School Reconstruction

Amount: \$5.0 million

The grant will support the Government of Vanuatu's school rebuilding drive in the wake of Cyclone Pam by rebuilding junior secondary schools in Tafea Province, making them more resilient to future disasters and climate change risks.³ The Category 5 cyclone, which tore through the Pacific on the evening of 13 March 2015, with sustained winds of up to 250 kilometers per hour, caused 11 deaths and widespread damage, primarily in Vanuatu.

The schools will be built back better to achieve a safer, clean learning environment for students. The project will also include the construction of community shelters to provide a safe place during emergencies, and will provide training to communities in disaster risk management.

At least five junior secondary schools, which suffered varying degrees of damage in the cyclone, will be rebuilt and upgraded, with facilities such as water tanks for rainwater storage, emergency power back-up, communications facilities, and essential supplies that can be accessed immediately in the event of a disaster. Communities will be consulted throughout the design process to ensure ownership and agreement on the proposed upgrades. Once the work is complete, the schools will be able to accommodate about 1,200 children.

South Asia

Nepal

Disaster Risk Reduction and Livelihood Restoration for Earthquake-Affected Communities

Amount: \$15.0 million

On 25 April 2015, a 7.8 magnitude earthquake struck Nepal, causing widespread destruction and loss of life and

affecting 31 out of 75 districts in Nepal. From these, 14 in the central and western regions with a total population of 5.4 million were most severely affected. The affected districts are essentially rural and agriculture-based areas where the pre-earthquake vulnerability level was already high. The earthquake particularly affected rural livelihoods by damaging livestock, crops, and agro-based cottage industries.

The project will rebuild or retrofit about 14 model schools that will be equipped with disaster-resilient structural standards, more learning space, better furniture and amenities, and capable and dedicated teachers who are trained for disaster-preparedness education.⁴ The model schools can provide a prototype for possible replication in the future.

The grant will also enable the project to provide concessional livelihood restoration microcredit to affected poor and vulnerable households. It will provide flexible microcredit to approximately 12,500 affected households to recover from the impacts of the earthquake.

Training programs will be provided on disaster-resilient construction and disaster risk management. The training will prepare community-based disaster risk management plans for the individual school communities, and train locally selected teachers, education administrators, school management committee members, and village development committee members.

Southeast Asia

Myanmar

Economic Empowerment of the Poor and Women in the East-West Economic Corridor

Amount: \$3.0 million

The project aims to scale up incomes and new employment opportunities for small businesses and entrepreneurs selling crafts and local food to tourists and residents in four townships in Mon state—Chaungzon Island, Kyaikto,

³ ADB. 2015. Report and Recommendation of the President to the Board of Directors: Proposed Administration of Grant to the Republic of Vanuatu for Cyclone Pam School Reconstruction. Manila (G 9181).

⁴ ADB. 2015. Report and Recommendation of the President to the Board of Directors: Proposed Administration of Grant to Nepal for Disaster Risk Reduction and Livelihood Restoration for Earthquake-Affected Communities. Manila (G 9180).

Mawlamyine, and Mudon—on the Greater Mekong Subregion East-West Economic Corridor.⁵

The project aims to identify new craft and food product lines and help small businesses, particularly those run by women and the poor, to give incomes a substantial lift. It will finance work skills training, help develop business management capabilities, provide links to suppliers and microfinance providers, and support a custom-built public market facility in Mawlamyine and a processing center in Kyaikto. The market will provide an outlet for local crafts, while the processing center will provide a suitable space for hygienic processing, packaging, and distribution of foods and handicrafts to traders. A vendor association at the market will be established to enhance the bargaining power of women and poor producers.

New entrepreneurial opportunities to households will provide an alternative to migration, and for returnees and "left behind" families of migrants. The project aims to provide livelihood opportunities for 900 households across 12 villages in the four townships.

Technical Assistance

Central Asia

Armenia

Solid Waste Management Solutions for Remote and Small Communities

Amount: \$0.55 million

In remote and small communities of Armenia, institutional capacity for effective solid waste management (SWM) is completely lacking and technical parameters guiding SWM are absent. Lack of awareness of proper SWM has led to the slow emergence of fee-based solutions and low prioritization accorded to SWM. This is leading to acute environmental degradation and threats to public health, in turn constraining the future development of the communities.

The small-scale technical assistance will help prepare a diagnostic study on SWM with prefeasibility studies for pilot projects and an indicative investment plan for small and remote communities.⁶ The study will focus on key development and policy challenges in small and remote communities related to SWM, and will help identify solutions.

Current practice of SWM in Armenia is simple truck and dump technology implemented by local municipalities. The idea is to shift SWM toward modern management of waste flows such as the 3Rs (reduce, reuse, recycle) that should translate into best operational practices, namely a dedicated at-source waste separation, then reuse and recycle, and at the end, disposal of the remaining waste at an environmentally sound sanitary landfill.

East Asia

Mongolia

Sustainable Forest Management to Improve Livelihood of Local Communities

Amount: \$2.0 million

The project will develop capacity for sustainable forest management from ministry to local levels and develop the capacity of community-based forest user groups, particularly women, on forest management, to improve their livelihood.⁷

It will benefit five districts in northeastern Mongolia. Rising temperatures from climate change and the large amounts of deadwood in the forest put these areas at risk of forest fires, which claim about 60,000 hectares of the country's 10.8 million hectares of forest cover each year.

The project will provide assistance to agencies managing forests, and to the forest communities that will derive income from activities that build climate resilience of the forest ecosystems. It will use technical skill training and pilot technical approaches to improve the access of forest user groups and households to income-generating activities.

⁵ ADB. 2015. Report and Recommendation of the President to the Board of Directors: Proposed Administration of Grant to the Republic of the Union of Myanmar for Economic Empowerment of the Poor and Women in the East-West Economic Corridor. Manila (G 9184).

⁶ ADB. 2015. Technical Assistance to Armenia for Solid Waste Management Solutions for Remote and Small Communities. Manila (TA 8875).

⁷ ADB. 2015. Technical Assistance to Mongolia for Sustainable Forest Management to Improve Livelihood of Local Communities. Manila (TA 8874).

Education Sector Development

Amount: \$1.0 million

The project will support the management and rollout of ongoing education reforms aimed at addressing equitability issues in the sector.⁸ Mongolia has made significant strides in improving the accessibility of its health and education services, but there are still constraints facing some groups and this assistance will help the government ensure that quality services are made available to those in need.

The education assistance will boost the capacity of the Ministry of Education, Culture and Science, the Institute of Education, sector reform teams, education departments, and laboratory schools in nine districts of Ulaanbaatar and six *aimags* (Dundgovi, Khentii, Khuvsgol, Orkhon, Uvs, and Zavkhan) to carry out municipal, *aimag*, and national level research on school factors that influence equity of access to quality education. It will also develop measures to enhance equity of access to quality education.

Concessions for Ulaanbaatar's Municipal Services

Amount: \$0.7 million

Although a decade of strong economic growth driven by the mining sector has substantially boosted average incomes in Mongolia, there still is inequality in the capital city of Ulaanbaatar where almost half of the residents lack access to clean water and sanitation, and the use of highly polluting coal-fired stoves is widespread because of an absence of district heating. With more than half of the residents living in informal *ger* (portable round tent) areas, lack of employment opportunities and basic services, and migration, adds pressure to the already inadequate services in Ulaanbaatar.

The project will establish a road map to provide affordable delivery of municipal services in Ulaanbaatar by publicprivate partnerships (PPPs).⁹ It will be designed to achieve a transition to PPPs that will help Ulaanbaatar become a smart, sustainable, and green city. It will assist the Economic Development Agency to screen proposed PPPs, and priority will be given to projects focusing on serving *ger* and remote areas of Ulaanbaatar. Candidate PPPs for screening include water and wastewater plants, building energy efficiency, education and health facilities, elderly care facilities, community bath houses, social housing, waste management and recycling facilities, car parks, industrial parks, and logistics terminals.

Supporting Agriculture Value Chain

Amount: \$2.0 million

The project is part of a \$63.0 million financing that will help Mongolia increase the value addition on its rich yet underused livestock and other agricultural resources through (i) value chain investments by agroenterprises and cooperatives; (ii) capacity strengthening of primary producers and processors; (iii) improvement of marketing and technical capacity of agroenterprises and cooperatives; and (iv) development of Mongolian product brands.¹⁰ It is expected to generate employment opportunities and help diversify the Mongolian economy, which has been driven by the mining sector.

The JFPR project will finance consulting services to improve the capacity of primary producers and processors, improve the marketing and technical capacity of agroenterprises and cooperatives, and develop Mongolian product brands.

Improving Access to Health Services for Disadvantaged Groups

Amount: \$1.0 million

The project will help increase the availability of primary and hospital health services to meet growing needs in *ger* areas of Ulaanbaatar City. This will be followed up by an ADB-assisted project to build 10 additional family health centers and establish district hospitals in *ger* areas.¹¹ The project will also improve the social health insurance system to increase access to services.

⁸ ADB. 2015. Technical Assistance to Mongolia for Education Sector Development. Manila (TA 8931).

⁹ ADB. 2015. Technical Assistance to Mongolia for Concessions for Ulaanbaatar's Municipal Services. Manila (TA 8939).

¹⁰ ADB. 2015. Report and Recommendation of the President to the Board of Directors: Proposed Loans for Additional Financing and Administration of Technical Assistance Grant to Mongolia for Agriculture and Rural Development Project. Manila (L3287, L 3288, TA 8960).

¹¹ ADB. 2015. Technical Assistance to Mongolia for Preparing the Improving Access to Health Services for Disadvantaged Groups Project. Manila (TA 8970).

Ulaanbaatar Affordable Housing and Urban Renewal

Amount: \$1.0 million

Improving the quality of life in Ulaanbaatar—especially in the *ger* (peri-urban) areas where 60% of the 1.3 million people in Ulaanbaatar live—is one of the Government of Mongolia's main priorities. The affordable housing project will join many other initiatives of the government and the Municipality of Ulaanbaatar to provide better infrastructure and living environments for residents and to reduce air and soil pollution in the capital city.

The project will promote the development of affordable housing stock through resource-efficient buildings and the use of renewable energy technology.¹² It will integrate innovative planning for social cohesion and economic opportunities for the population. Financial and institutional arrangements will establish sustainable housing finance mechanisms and will combine public and private financing to ensure the sustainable redevelopment of the target areas.

South Asia

Bangladesh

Capacity Building of Management in Education and Skills Programs

Amount: \$1.5 million

To support the development of a strong base of skilled labor force, the TA project aims to help improve the capacity of central and local governments in fiduciary risk management and monitoring and evaluation in the secondary education and skills sectors.¹³ Greater institutional capacity will lead to more efficient use of funds, and better performance in these sectors.

Bhutan

South Asia Subregional Economic Cooperation Green Power Investment Program

Amount: \$1.5 million

The TA project will help prepare a multi-tranche financing facility that will support the development of the Nyera Amari run-of-river hydropower plant and transmission system facilities in the eastern region of Bhutan.¹⁴ The power generated from the plant can be supplied through the eastern grid network system for dual purposes of export and domestic consumption. While the eastern region has the highest population among the regions, it has been less developed in overall infrastructure, and is more likely to be poorer than other regions. The Government of Bhutan aims for balanced regional development, which is to ensure that inclusive development is equitably spread across the country.

Decentralized Coordination and Partnerships for Gender Equality Results

Amount: \$1.5 million

The TA project will strengthen the institutional capacity of the National Commission for Women and Children to promote gender equality and women's empowerment through national and local government institutions.¹⁵ It will also contribute in strengthening the private sector through PPPs in economic projects and in providing social services that benefit the poor, especially poor women. It will build the capacity of functional women self-help groups (SHGs) by enhancing their marketing capacity and promoting an entrepreneurial culture in the villages (and potentially extending to the whole district) where these SHGs are operating. More viable and productive SHG enterprises will create employment and enhance rural income.

¹³ ADB. 2015. Technical Assistance to the People's Republic of Bangladesh for Capacity Building of Management in Education and Skills Programs. Manila (TA 8956).

¹⁴ ADB. 2015. Technical Assistance to the Kingdom of Bhutan for Preparing the South Asia Subregional Economic Cooperation Green Power Investment Program. Manila (TA 9005).

¹⁵ ADB. 2015. Technical Assistance to the Kingdom of Bhutan for Decentralized Coordination and Partnerships for Gender Equality Results. Manila (TA 9016).

India

Strengthening Capacity of the National Urban Health Mission

Amount: \$2.0 million

The TA project will reconfirm the National Urban Health Mission's (NUHM) relevance, rationale, and its linkage with the Government of India's development goals and sector strategy for urban health.¹⁶ It will examine the program's effectiveness, efficiency and economy, and sustainability. Specifically, it will review the soundness of the NUHM's implementation framework and the proposed state-level program implementation guidelines.

The TA project will also analyze the extent to which NUHM, with some strengthening in its design and implementation arrangements, can achieve its desired outcomes of serving health care needs of the urban poor in a sustainable manner. It will also analyze the organizational set-up at central, state, and urban local body levels; staff capacity; and mechanisms for stakeholder consultations and grievance resolving. It will also initiate a review of NUHM's expenditure framework and financing plan, and assess the planning and budgeting process.

Supporting the Preparation and Implementation of the Comprehensive Integrated Master Plan of the Vizag-Chennai Industrial Corridor

Amount: \$2.0 million

India's manufacturing sector remains relatively underdeveloped compared to its Asian counterparts. This is due in part to poor infrastructure, including roads and railways, power grids, and water and sewer systems. India must address these issues to provide an enabling environment for manufacturing industries in the country. The government has designated the Vizag-Chennai Industrial Corridor as an area rich in potential for the development of a vibrant manufacturing sector. The TA project aims to help improve the readiness of government agencies working in the development of the Vizag-Chennai Industrial Corridor so that the area can contribute to the country's manufacturing growth campaign, popularly known as the Make in India initiative.¹⁷ It will help initiate preparatory work for the development of the East Coast Economic Corridor—India's first coastal corridor—and implement a training program on economic corridor development and management.

Supporting Rajasthan's Productive Clusters in the Delhi-Mumbai Industrial Corridor

Amount: \$1.0 million

The project aims to provide a more investment-friendly climate, improve the competitiveness of industrial clusters in the Delhi–Mumbai Industrial Corridor, and increase the employment rate in Rajasthan. It will help complete a cluster development plan for accelerated industrial development in Rajasthan and implement capacity building on the design, development, and management of productive clusters and economic corridors.¹⁸

A productive industry cluster is a group of firms closely linked by common product markets, labor pools, similar technologies, supply chains, infrastructure, technical colleges, and other economic ties. A productive cluster development approach is important as the firms and organizations involved in clusters can synergize and leverage economic advantages from shared access to information and knowledge networks, supply and distribution chains, markets and marketing intelligence, competencies, infrastructure, low transaction and communication cost, and resources in a specific locality for overall improved competitiveness and productivity.

Southeast Asia

Cambodia

Strengthening Capacity Development for National Skills Development

Amount: \$1.0 million

The government acknowledges that the current workforce's skills mismatch, shortage, and low education and skills pose major constraints to conducting business in Cambodia and limit the country's competitiveness and growth. In response, it has taken steps to reform, expand, and modernize the country's technical and vocational

¹⁶ ADB. 2015. Technical Assistance to India for Strengthening Capacity of the National Urban Health Mission. Manila (TA 8899).

¹⁷ ADB. 2015. Technical Assistance to India for Supporting the Preparation and Implementation of the Comprehensive Integrated Master Plan of the Vizag–Chennai Industrial Corridor. Manila (TA 8949).

¹⁸ ADB. 2015. Technical Assistance to India for Supporting Rajasthan's Productive Clusters in the Delhi-Mumbai Industrial Corridor. Manila (TA 9031).

education and training (TVET) system. The TA project will help improve the capacity of the Directorate General of Technical and Vocational Education and Training technical departments, and training institutes to develop and implement results-based planning and budgeting, and TVET policies through a phased training program.¹⁹ It will strengthen the capacity of the Directorate General, TVET in developing national technical vocational education and training policy and in the completion of a feasibility study on training funds. It will also increase women's access to certificate-level training programs and participation in TVET system management positions with a gender policy and action plan.

Myanmar

Improving Road Network Management and Safety

Amount: \$2.0 million

The TA project is aligned with Myanmar's 2014 National Transport Sector Development Master Plan, which hopes to develop safe, all-weather infrastructure for road transport.²⁰ It will help the Ministries of Construction and Rail Transportation to prepare the first phases of national highway rehabilitation and national road safety programs.²¹ This will include the preparation of technical designs for pavement repair and upgrades on at least 500 kilometers of highways. The assistance will also be used to advise on road safety policies, as well as to upgrade and institutionalize an ADB-supported road database and pavement management system.

Philippines

Implementing the Senior High School Support Program

Amount: \$1.5 million

In December 2014, ADB approved the \$300 million Senior High School Support Program to support the establishment and implementation of senior high school from 2014 to 2019, as part of the Philippines' kindergarten to grade 12 (K to 12) education reform program.²² Two of the results areas supported by the program are the establishment of a senior high school (SHS) voucher program for graduates of public, and some private, junior high schools to attend private SHSs; and assessing the feasibility of using PPPs for the delivery of some SHS infrastructure.

Introduction of the SHS voucher program will provide students from families at all income levels with a choice of attending either a public or private SHS. It will also help to increase the quality and efficiency of SHS delivery and will allow the government to make use of the extensive network of private education providers that exists in the Philippines. The TA project will strengthen the Department of Education's capacity to manage results-based lending programs and to communicate, implement, and oversee the new SHS voucher and SHS infrastructure PPP programs.²³

Thailand

Strengthening Specialized and Semiformal Financial Institutions to Support Financial Inclusion

Amount: \$1.5 million

Financial inclusion is a dynamic issue. At the basic level, it is about access to financial services such as savings, credits, and payment for the low-income segment of the population. For a fast-aging, middle-income country such as Thailand, financial inclusion also involves issues of microinsurance, pensions, and financing for community-based innovation, among others. The TA project will support the implementation of Thailand's Master Plan for Financial Inclusion²⁴ and, in the long term, provide stronger inclusive finance for low-income households.

The TA project will help strengthen the capacity of the Fiscal Policy Office and semi formal and specialized financial institutions in appraising business directions and developing medium-term strategic business plans

¹⁹ ADB. 2015. Technical Assistance to the Kingdom of Cambodia for Strengthening Capacity Development for National Skills Development. Manila (TA 8942).

ADB. 2014. Report and Recommendation of the President to the Board of Directors: Proposed Results-Based Loan to the Republic of the Philippines for the Senior High School Support Program. Manila.

²³ ADB. 2015. Technical Assistance to the Republic of the Philippines for Implementing the Senior High School Support Program. Manila (TA 9004).

²⁴ The three strategies under the Master Plan for Financial Inclusion are (i) increase income and financial capability of low-income population, (ii) strengthen financial service providers, and (iii) develop necessary financial infrastructure for financial inclusion.

in accordance with the identified supply gaps.²⁵ It will also help the Secondary Mortgage Corporation develop the mortgage insurance business organization and structure mortgage insurance products. The TA project will undertake an in-depth review of cooperative-based financial services and propose an improved regulatory and governance framework.

Viet Nam

Capacity Building for Project Management Unit Professionalization

Amount: \$1.5 million

The TA project will support the professionalization of project management unit staff in target provinces on a pilot basis, and complement the government's action plan to improve the performance of programs and projects under official development assistance.²⁶ The TA project will help provincial-level project management unit staff meet the performance standards or core skills requirements for project management through on-the-job training and capacity-building activities.

Regional

Capacity Building for Developing Qualification Frameworks under the Mutual Recognition Agreements to Support the ASEAN Economic Community by 2015 and Beyond

Amount: \$1.2 million

The TA project will support the ASEAN Economic Community by developing the capacity of key government officials and stakeholders to be able to build an effective, systematic, and transparent skill mobility system in the region in line with the signed Mutual Recognition Agreements on eight occupations: engineering, nursing, architecture, medicine, dentistry, accountancy, land surveying, and tourism.

The TA project will bring together key government officials at different levels and other stakeholders-including consultants and professionals associations-to work together to generate and share knowledge, bring up good practices from around the world, and also learn from mistakes and failures as part of the "learning-by-doing" process to come up with the most efficient and suitable solutions for the region.²⁷ Skill mobility is a critical factor the ASEAN Economic Community-to maximize in human (and other) resources allocation and to contribute to higher sustained growth as well as reduce poverty. The freer skill mobility will also encourage more competition and investments in human capital, knowledge, and innovation that would further increase efficiency and promote economic growth in the region and beyond.

Applying Space-Based Technology and Information and Communication Technology to Strengthen Disaster Resilience

Amount: \$2.0 million

The TA project aims to help developing countries in Asia and the Pacific tap the latest technologies, including satellite maps, to help them prepare and respond more effectively and quickly to natural disasters. The project will train government, community officials, and local volunteers in Armenia, Bangladesh, Fiji, and the Philippines to use new state-of-the-art space-based technology and other high-technology tools for disaster planning.²⁸ These four countries will act as pilot sites for the potential wider adoption of these technologies across the region. Spacebased technology can help these pilot countries improve their resilience in an efficient, sustainable way with reliable and timely disaster-related data. Along with training, the project will also draw up policy guidelines to guide the use of the new technologies, providing a potential blueprint for their wider adoption in other parts of the region.

Japan Fund for Poverty Reduction Annual Report 2015

The 2015 Annual Report of the Japan Fund for Poverty Reduction (JFPR) presents the background and rationale, implementation progress, and achievements of the JFPR. It is the 15th such report and covers the period 1 January–31 December 2015.

Established in May 2000, JFPR provides direct grant assistance to the poorest and most vulnerable groups in developing members of the Asian Development Bank (ADB) while fostering long-term social and economic development. The grants target poverty reduction initiatives with the direct participation of nongovernment organizations, community groups, and civil society. In 2009, the Government of Japan and ADB expanded the scope of JFPR to include provision of support to developing members through capacity development, policy and advisory, research and development, and project preparatory technical assistance.

About the Asian Development Bank

ADB's vision is an Asia and Pacific region free of poverty. Its mission is to help its developing member countries reduce poverty and improve the quality of life of their people. Despite the region's many successes, it remains home to a large share of the world's poor. ADB is committed to reducing poverty through inclusive economic growth, environmentally sustainable growth, and regional integration.

Based in Manila, ADB is owned by 67 members, including 48 from the region. Its main instruments for helping its developing member countries are policy dialogue, loans, equity investments, guarantees, grants, and technical assistance.
